

A photograph of three healthcare professionals in an operating room. In the foreground, a woman with dark hair, wearing a blue surgical cap and blue scrubs, has her arms crossed and is smiling broadly at the camera. A surgical mask is hanging from her neck. Behind her, two men are also smiling. The man on the left is wearing green scrubs and a blue surgical cap. The man on the right is wearing blue scrubs and a blue surgical cap. They are all standing in a brightly lit operating room with medical equipment visible in the background.

5 Moments of Need

Learn New

When you are learning how to do something for the first time,

Learn More

When you are expanding your knowledge and skills

Apply

How to act, how to use the knowledge and skills @work

Solve

When you need a solution for a problem

Change

Un-learning and re-learning. Changing the way you used to work.

Guide me from beginner to competent.

Give me an easy way to learn more in relation to what I already know.

Help me learn from others' real world experience.

Give me easy-to-find answers, fast.

Teach me what's new, and let all of us share how we're changing our everyday habits.

5 moments of need

- Alle fases zijn nodig
- Ondersteunende kennis is nodig voordat je de actie daadwerkelijk uitvoert

Veilig Falen

Piloot: "volgens deze app kan ik de motoren tijdens de vlucht uitzetten en toch veilig landen, dat wil ik proberen!"

1. Learn new

2. Learn more

Van “moeten” leren, naar
“willen leren.

- Interactief
- Quiz-format
- Behapbare brokken content

3.Apply

- De juiste informatie
- Voor de juiste persoon
- Op het juiste moment

3. Apply

Registreren van leerdoelen en feedback

The screenshot displays a web application for tracking surgical development goals. The main heading is 'Open Appendectomy'. On the left, a sidebar lists three categories: 'Open Appendectomy' (4 approved, 2 to go), 'Laparoscopic Appendectomy' (0 approved, 7 to go), and 'Open Inguinal Hernia Repair (Lichtenstein) - Direct Hernia' (0 approved, 14 to go). The main content area shows a progress bar for 'Open Appendectomy' with '4 approved' and '2 to go'. Below this, a table lists 'Supervision level' and 'To go' counts: 'Observed' (Level 1, 1 to go) and 'Indirect supervision' (Level 3, 1 to go). A 'Development goal' table follows, listing dates, supervision levels, and approval status.

Supervision level	To go
Observed Level 1	1
Indirect supervision Level 3	1

Development goal		
Experiences that were part of your goal		
25-05-2021	Level 2 Direct supervision	Pending ⌚
20-05-2021	Level 5 Supervised colleague	Approved ✓
20-05-2021	Level 2 Direct supervision	Approved ✓
20-05-2021	Level 1 Observed	Approved ✓
20-05-2021	Level 2	Approved ✓

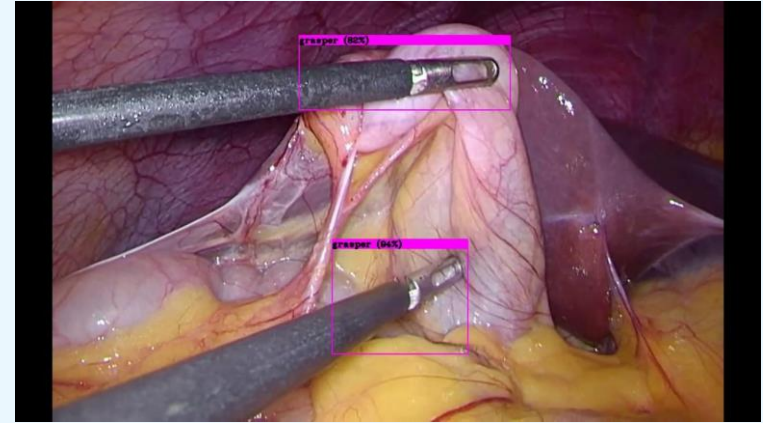

4.Solve

- Oplossingen voor onverwachte/
ongewenste situaties

5.Change

- Leren en afleren
- Feedback - verbeter-loop
- Artificial Intelligence voor instrument detectie
- Delen van "best practices"

incision **video assessment**

Laparoscopic Cholecystectomy

Status: 60% Date: 04.11.2020 Points: 54%

Procedure

Assessment

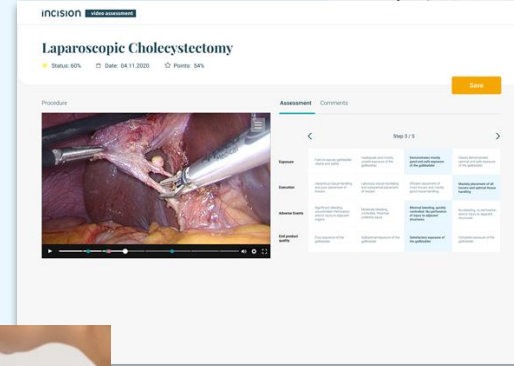

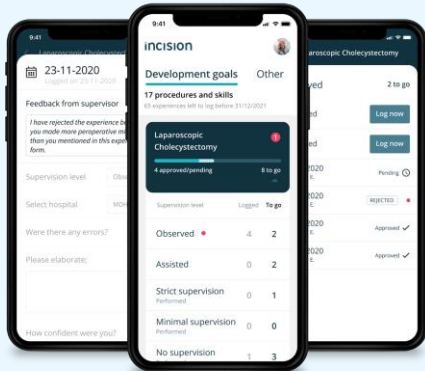

Step 2 / 5

Exposure	Extraction	Adverse Events	End product quality
Exposure: Clear view of the gallbladder and its associated structures.	Extraction: Gallbladder is safely removed and placed in a retrieval bag.	Adverse Events: No adverse events occurred during the procedure.	End product quality: The gallbladder is completely removed and the surgical site is clean.

Wat is jouw ideale leeromgeving?
